

## Performance Management

RedPrairie Performance Management is an advanced web-based analytic solution that leverages the wealth of existing information in all of your Supply Chain Execution systems and applies it to Key Performance Indicators and definable thresholds. Built on RedPrairie's Analytic Foundation, Performance Management provides a customizable, industry leading solution that transforms raw, disparate data into useful Scorecarding and Analytics. The result is a true end-to-end industry solution that provides any size organization unprecedented insight into their warehouse performance, workforce productivity and transportation optimization that will give you a unique competitive advantage.

---

### KEY BENEFITS

- > Warehouse Performance
- > Workforce Productivity
- > Transportation Optimization

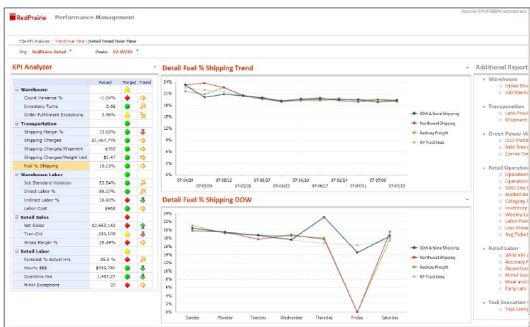

Analyze by location, product and employee

---

*"Using RedPrairie's Performance Management, Culver's has been able to bring together the KPI's that we use to monitor and drive our business into a single easy to use interface. We have even been able to gain new insights into a key corporate service levels strategy by analyzing information. Looking into the future, we plan to deploy Performance Management into our corporate SharePoint extranet site which will allow us to share pertinent information with even more of our employees and franchisees."*

Joe Koss,  
CFO for Culver's Franchising System, Inc.
