

Inventory Management

Everything. That's what customers want, and RedPrairie's sophisticated Inventory Management solutions make it happen without breaking the ledger. Offering the best prices, the latest products, and superior service are all possible because of integrated back office technology that sharpens your competitive edge. Inventory Management from RedPrairie provides site-level inventory control and enterprise-wide inventory visibility, enabling you to control inventory shrink and meet customer demand more effectively.

KEY BENEFITS

- Increase sales
 - Improve operating margins through timely and accurate invoice reconciliation
 - Identify and reduce cost of theft, loss or training issues
 - Reduce ordering and administration time
 - Reduce food cost
 - Automated purchase-to-pay process
-

Restaurant and convenience store managers understand the delicate balance required to provide an exceptional customer experience while maintaining tight control over food costs. RedPrairie's Inventory Management solution addresses this challenge, giving managers visibility and control over inventory.

RedPrairie's E²e™ solution offers additional modules to improve your business operations.

- > Workforce Management
- > Execution Management
- > Financial Management
- > Merchandise Management
- > Performance Management

Capabilities

RedPrairie Inventory Management solutions provide closed-loop control that forecasts the business, plans product movement, orchestrates suppliers, optimizes purchasing, anticipates workloads, and prepares just the right amount of fresh product to meet demand. Key features include:

- **Perpetual Inventory** - Tracks all inventory transactions in the store—ordering, receiving, cycle counts, adjustments and transfers—providing visibility into supply chain and other store inventory, enabling retailers and restaurateurs to meet customer demand.
- **Food Cost Management** - Enables restaurant operators to:
 - > Order, prep & produce food based on demand
 - > Accurately calculate food costs
 - > Track costs by recipe & reduce carrying costs
- **Invoice Reconciliation** - Enables users to:
 - > Automatically reconcile inventory
 - > Flag discrepancies as exceptions
 - > Automatically generate credits
- **Forecasted Replenishment** - Forecast needs based on sales, seasonality, and special events or promotions, and generate automated suggested orders based on these factors.
- **Purchasing** - Integrate with and manage suppliers through electronic ordering and automated receiving capabilities.

About RedPrairie

RedPrairie delivers productivity solutions to help companies around the world in three categories—inventory, transportation and workforce. RedPrairie provides these solutions to manufacturers, distributors and retailers looking to reduce cost, increase sales and create competitive advantage.

With over 20 global offices providing services to over 40,000 sites in 50 countries, companies trust RedPrairie inventory, workforce and transportation solutions to deliver an immediate increase in productivity—with the flexibility to adapt as business needs change.

At RedPrairie, we understand today's operational demands and we're committed to delivering solutions that work. We're committed to delivering solutions for the real world.
